

To the All Seasons Crew:

We are absolutely thrilled with our new room! From the beginning of this project, the entire staff was cooperative, friendly, and helpful. Scott gave us excellent advice when we couldn't seem to arrive at a decision. His taping and finishing work is beautiful. Mark was always available for questions, which made us very comfortable and confident that everything would turn out fine. All of the men that worked on our recent project were polite and receptive to our demands.

Jeff--we love the sunburst on the back. It looks terrific from a distance as well. The pretty flower box provided the perfect finishing touch. Thank you!

Our property has been enhanced by All Seasons: the roof, windows, deck, and finally the "therapy" room. We would proudly share our satisfaction with potential clients, and we look forward to working with your staff again in the future. Please consider us as a positive reference. Our county is very lucky to have All Seasons---an outstanding construction company!

Also, thank you for recommending Al Decker as our designer. He is very accommodating as well. Recently, he has helped us out with plans for the ramp at the store. We will be contacting you for another estimate once we receive the completed plans.

Sincerely appreciative,
Dick and Joan Marciniak
